Intensive Retreat

11th - 21th March 2012, Bhairava Nagar, India

Given by: Shin Shiva Svayambhu M.

Shin Shiva Svayambhu M.

is working and teaching worldwide. With His divine forces He helps people of all cultural and social groups to come to their true kernel of being which is the source of all human dignity and goodness of heart.

Shiva Himself teaches those people who want to work with Him in His present task, the healing and enhancing of evolution.

He teaches those human beings who - faithful to God and yet in freedom - wish to attain realisation of their own true being, and find the primal source of all yogas.

Shin Shiva reveals the way behind the ways for the present and future.

India carries the longest unbroken spiritual tradition, which, at its best has remained true to the original teachings given by God. From India, in free co-operation with its people, SHIN SHIVA SVAYAMBHU M. can develop new impulses for the union of spiritual and physical life. His projects strive to bring together the spiritual, political, economic, social life into a unity that can work beneficially into the whole world.

Spiritual High School of the Ocean of Life - Nectar of Knowledge

Bhairava Nagar: Some years ago, a pioneer project was started in Garhwal, in the foothills of the Himalayas.

This place will become a 'University', a place of integral learning, of recognition of the laws and forces of the universe, a place from where a new perception of wholeness and unity and a new understanding of the work on earth will spread worldwide. In the spiritual work, in the study of the laws of the cosmos and nature, all spheres of the human being and nature as well as the practical work on the earth will be considered.
